Letter dated 1 May 2009 from the Secretary-General addressed to the President of the Security Council

I refer to my letter dated 25 July 2008 (S/2008/492) to the President of the Security Council. With that letter, I had enclosed my note on the arrangements for the termination of the operations related to the letters of credit issued against the United Nations Iraq Account under Security Council resolution 1483 (2003).

In order to apprise the Security Council of developments after my letter of 25 July 2008, attached please find an update on the status of the remaining activity relating to the operations of the letters of credit as at 31 March 2009.

I should be grateful if you would bring the attached documents to the attention of the members of the Security Council.

Enclosure

Note by the Secretary-General on the arrangements for the termination of the operations related to the letters of credit issued against the United Nations Iraq Account pursuant to Security Council resolution 1483 (2003)

I. Introduction

1. Following my letter to the President of the Security Council dated 25 July 2008 (S/2008/492), the purpose of this note is:

(a) To apprise the Security Council of the status of the remaining activity relating to the oil-for-food programme and of the United Nations Iraq Account, as at 31 March 2009 (see sects. II and IV below);

(b) To provide an overview of the remaining funds pertaining to the programme, including the transfer of funds to the Development Fund for Iraq, since the adoption of Security Council resolution 1483 (2003) (see sects. III, IV and V below).

2. I recall that by means of regular correspondence to the President of the Security Council, including letters dated 8 August 2005 (S/2005/535), 17 October 2005 (S/2005/656), 19 December 2005 (S/2005/807), 10 July 2006 (S/2006/510), 8 December 2006 (S/2007/46), 27 March 2007 (S/2007/241), 25 July 2007 (S/2007/476), 7 December 2007 (S/2007/725), 23 January 2008 (S/2008/41), 11 March 2008 (S/2008/175 and S/2008/205) and 25 July 2008 (S/2008/492), the Secretary-General has kept the Security Council duly informed on the status of the termination of the operations related to the letters of credit issued against the United Nations Iraq Account under the programme.

II. Status of the remaining activity relating to the programme as at 31 March 2009

3. The number of outstanding letters of credit has been reduced from 147, with an approximate value of US$ 495 million, as reported in the note accompanying my letter of 25 July 2008, to 92, with an approximate value of $313 million (89 letters of credit with claims of delivery with an approximate total value of $146 million and three outstanding letters of credit which are in the process of being reviewed for determination of final status, with an approximate total value of $167 million), as detailed in annex I to this note. The decrease in the number of letters of credit is due to (a) the cancellation of 53 letters of credit (of which 41 were fully cancelled and 12 were partially paid and the respective outstanding balance duly cancelled), as shown in annex V, and (b) the full payment of two letters of credit. Payments made in the period from July 2008 to March 2009 amount in the aggregate to approximately $39 million. I should recall that, consistent with the legal framework of the programme, no payment can be made to the suppliers in the absence of authentication documents duly issued by the Government of Iraq. Therefore, all payments mentioned above were made on the basis of the provision of required authentication documents (confirmations of arrival) by the Government of Iraq, as detailed in annex VI.

4. I recall that the Security Council agreed to accept the authentication work associated with 17 letters of credit completed by Cotecna at the time of the handover of its functions to the Government of Iraq, as identified in annex VI to my letter to the President of the Security Council dated 25 July 2007 (S/2007/476). Accordingly, the Security Council requested the Secretariat to issue all necessary documentation to BNP Paribas for early settlement of the related 17 letters of credit (see letter from the President of the Security Council to the Secretary-General dated 8 November 2007 (S/2007/661)). As requested, and subject to all other requirements under the legal framework of the programme having being met, the Secretariat issued all necessary documentation to BNP Paribas, and BNP Paribas is in the process of completing payment to the beneficiaries of the relevant letters of credit.

5. As shown in table 1, the number of letters of credit with claims of delivery has decreased from 139 with claims of delivery, with an approximate total value of $273 million, as reported in the attachment to my letter of 25 July 2008, to 89 with claims of delivery, with an approximate total value of $146 million.

III. Status of the United Nations Iraq Account

7. As at 31 March 2009, the United Nations Iraq Account contained US$ 872 million ($200 million and €510 million held in the Euro sub-account with an equivalent value of $672 million (at a rate of $1.3175)). Of the total amount of $872 million, approximately $314 million is currently held in the cash collateral portion of the United Nations Iraq Account for expired letters of credit to cover the amount of claims of delivery made by suppliers. The remaining amount of $558 million is currently held in the non-collateral portion of the United Nations Iraq Account corresponding to the following:

(a) $187 million, which is being held in the United Nations Iraq Account as a reserve for any unanticipated claims until such date as all unresolved issues relating to the programme are finally resolved pursuant to paragraph 16 of the note accompanying the Secretary-General's letter to the President of the Security Council dated 10 July 2006 (S/2006/510);

(b) $225 million originally held in the United Nations Iraq Account as collateral in respect of expired letters of credit which have not been transferred to the Development Fund for Iraq pending the resolution of claims of delivery from

suppliers in those cases where the Government of Iraq has not issued authentication documents pursuant to the notes accompanying my letters to the President of the Security Council dated 25 July 2007 (S/2007/476), 7 December 2007 (S/2007/725) and 23 January 2008 (S/2008/41);

(c) $146 million corresponding to recently cancelled letters of credit, interest earned on the investment of the funds and unrealized gains or losses from the fluctuations of the euro against the United States dollar.

IV. Status of the termination of operations of the letters of credit issued against the United Nations Iraq Account

8. I recall that, pursuant to Security Council resolution 1483 (2003), 3,009 contracts, with associated letters of credit with an approximate value of $8 billion, were considered essential for the reconstruction and/or humanitarian needs of the Iraqi people and were, therefore, prioritized. I should also recall that accordingly the corresponding collateral for the full value of the letters of credit (approximately $8 billion) was kept in the United Nations Iraq Account.

9. Following the termination of the programme on 21 November 2003, pursuant to Security Council resolution 1483 (2003), the United Nations retained the administration of the above-mentioned 3,009 letters of credit. Subsequently, the Government of Iraq requested the extension of certain letters of credit associated with certain contracts until the end of December 2007.

10. As shown in table 3, out of a total of 3,009 letters of credit, (a) 92 letters of credit correspond to letters of credit still outstanding as at 31 March 2009; (b) 585 were fully cancelled since no delivery was ever made and those files were consequently closed; (c) 1,187 were partially paid for the partial delivery of goods and the related balances were cancelled; and (d) 1,145 letters of credit were paid in full for the full delivery of goods. As at 31 March 2009, out of the total 3,009 letters of credit corresponding to prioritized contracts, only 92 letters of credit with an approximate value of $313 million remain outstanding, as detailed in annex I.

11. I also recall that the responsibility for the authentication of the arrival of goods in Iraq was first transferred from the United Nations to the Coalition Provisional Authority, effective as from 21 November 2003, pursuant to paragraph 16 of Security Council resolution 1483 (2003). Thereafter, such responsibility was transferred from the Coalition Provisional Authority to the Government of Iraq, effective as from 30 June 2004, pursuant to paragraph 26 of Security Council resolution 1546 (2004). While the processing of authentication documents has been

slow, as reported previously in my letters to the President of the Security Council, the number of outstanding letters of credit has been reduced significantly since July 2008.

12. In addition, as mentioned in the note accompanying my letter to the President of the Security Council dated 7 December 2007 (S/2007/725), beyond the letters of credit still outstanding as described above, the Secretariat has identified certain beneficiaries who made claims of delivery prior to the expiry of the letter of credit and whose letters of credit had been cancelled. Following the Secretariat's review of the files, I am able to confirm that only three letters of credit, related to communications numbers 801655, 802659 and 830642, fall under the above-mentioned category of cases. As mentioned in the enclosure to my letter to the President of the Security Council dated 25 July 2008 (S/2008/492), I believe that, whatever option may be selected by the Security Council for concluding all outstanding issues under the programme, those letters of credit should be treated in the same manner as those letters of credit with claims of delivery listed in annex I. Therefore, should the Security Council decide to treat the three letters of credit in the same manner as those letters of credit listed in annex I, then the total amount of letters of credit still outstanding as at 31 March 2009 would amount to 95 letters of credit — that is, (a) 89 letters of credit with claims of delivery; (b) three letters of credit whose beneficiaries made claims of delivery prior to the expiry of the letter of credit and whose letters of credit were cancelled; and (c) three letters of credit which are in the process of being reviewed for determination of final status.

V. Transfer of funds to the Development Fund for Iraq

13. To date, a total of $10.42 billion (see table 4) has been transferred from the United Nations Iraq Account to the Development Fund for Iraq, pursuant to Security Council resolution 1483 (2003). This includes an approximate amount of $9.9 billion transferred from the humanitarian branch of the programme. I note, however, that the United Nations has obtained no indemnification from the Government of Iraq in respect of the funds transferred to the Development Fund for Iraq, as highlighted in the letter from the Secretary-General to the President of the Security Council dated 10 July 2006 (S/2006/510). It should also be noted that there is a general need to obtain an indemnity from the Government of Iraq, including for the administration, operation and management of the programme (including claims resulting from the termination and the winding-down of the programme) as indicated in my letter of 25 July 2008 (S/2008/492).
